Please enter the URL provided by your company.

<https://ku-vpn.ku.edu.kw>

Submit

4- Fill in below files as shown below then click **Add**

6:37

← Add Connection

Enter required fields below and click the add button to add a connection.

Type

Connect Secure (VPN)

Connection Name

KU-VPN

URL *

https://ku-vpn.ku.edu.kw

Username

(Optional)

Authentication Type

Password >

Realm

(Optional)

Role

(Optional)

Add **Connect**

- 5- Click on **Allow** to give permission for the Application to install VPN settings

The screenshot shows an iPhone screen with the status bar at the top displaying the time 6:37, cellular signal, Wi-Fi, and a 97% battery level. The app interface is titled 'Add Connection' with a back arrow on the left. Below the title, a message states: 'Enter required fields below and click the add button to add a connection.'

The form contains the following fields:

- Type:** A dropdown menu with 'Connect Secure (VPN)' selected.
- Connection Name:** A text field containing 'KU-VPN'.
- URL:** A text field containing 'https://ku-vpn.ku.edu.kw'.
- Username:** A text field with '(Optional)' as a placeholder.
- Authentication Password:** A text field with a right-pointing chevron icon.
- Realm:** A text field with '(Optional)' as a placeholder.
- Role:** A text field with '(Optional)' as a placeholder.

At the bottom of the screen are two buttons: 'Add' and 'Connect'.

A system alert dialog is overlaid on the screen, titled '"Secure Access" Would Like to Add VPN Configurations'. The message inside the dialog reads: 'All network activity on this iPhone may be filtered or monitored when using VPN.' At the bottom of the dialog are two buttons: 'Allow' (highlighted with a red rectangle) and 'Don't Allow'.

- 6- Fill the Login info to access your privilege based on your request
(VPN Request Form – IT Security Department)
then **Sign In**
Username: Your KU ID
Password: Same as the Unified KU credentials or Employee Self-service system
