(Optional)

Add

Connect

- 5- Click on **Allow** to give permission for the Application to install VPN settings

The screenshot shows an iPhone screen with the title "Add Connection". At the top, the status bar displays the time 6:37, signal strength, Wi-Fi, and a 97% battery level. Below the title, there is a back arrow and a description: "Enter required fields below and click the add button to add a connection." The form contains several fields: "Type" (set to "Connect Secure (VPN)"), "Connection Name" (set to "KU-VPN"), "URL" (set to "https://ku-vpn.ku.edu.kw"), "Username" (optional), "Authentic Password" (with a right arrow), "Realm" (optional), and "Role" (optional). A system alert dialog is overlaid on the screen, titled "“Secure Access” Would Like to Add VPN Configurations". The message in the dialog states: "All network activity on this iPhone may be filtered or monitored when using VPN." At the bottom of the dialog are two buttons: "Allow" (highlighted with a red rectangle) and "Don't Allow". At the bottom of the screen, there are two large buttons: "Add" and "Connect".
